To Whom It May Concern,

I met Amy Hissom a few years ago, when I was in the need for a web designer. She worked with us for years, helping to improve the look and design of our website. Her extensive knowledge and positive attitude made her a joy to work with. I would hire her again to do computer work for us. And I would recommend her services to anyone who needs a computer person who has a large variety of experience. She is a good teacher as well. I miss working with her. She will be an asset to any company or individual who is lucky enough to receive her services.

Sincerely,

Marina Schaum, President  
Ohio Valley Herbal Products, Inc.
