To whom it may concern,

I would like to recommend Amy Hissom to participate in your graduate school program. Her skills as our chapter website manager have far exceeded any of our board members expectations. Amy has the skills to create a website and works very effectively with the members of the board in carrying out her duties. We have received double the amount of hits on our website since Amy began managing our site.

In December of 2008, our chapter presented Amy with a "Certificate of Excellent" in recognition of her outstanding efforts and the success our website has found in the genealogy world, thanks to Amy. She has outstanding skills and knowledge in designing a website and continues to maintain the highest standards, while making regular updates to the website. Since she has managed our website, it has been voted as the #1 chapter in the Ohio Genealogy Society for the past 2 years.

Amy is a very creative and a highly motivated person. She is interested in learning and applying what she learns to her job. I have enjoyed working with her these past three years and I hope to continue working with her for many years to come.

Respectfully yours,

Flora L. VerStraten, President

Jefferson County Chapter, OGS
